EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ronald Kurdyla (26,932) on 11 July 2006.

2. Please amend the application as follows:

In claim 1, line 8: "consistent with the selection parameter" should be changed to -- consistent with the selection parameter(s) --.

This change has been made so that the claim language is consistent with the "at least one selection parameter" recited in line 4.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:

Applicant has amended claim 1 to denote that the variable C is "the inverse of a mean number of pixels per fragment, in the image." As taught in the Specification at paragraphs [0099]-[0101], and [0110], using the inverse of the mean number of pixels of K fragments in the image (where $K > 2$) encourages the merging of small fragments. The C value is therefore "independent of the fragments considered in the merge" (paragraph [0110]).

Art Unit: 2624

In contrast, Haris teaches that the C value depends on the aggregate number of pixels contained only in the two fragments under consideration for a merge. According to equation (12) in Haris, $C = 1 / (\|R_M^i\| + \|R_M^j\|)$ and is consistent with the mean number of pixels contained in the fragments i and j, but the value C does not represent an inverse of a mean (or aggregate) number of pixels per fragment in the image. In other words, Haris's C value corresponds to only the two fragments to be merged, and it does not represent the inverse of the mean number of pixels for all fragments in the image (where the number of fragments is greater two).

For this reason, claim 1, and all claims dependent therefrom, are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
